Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Retention	Percentage of students not earning a degree who were enrolled in Fall 2021 and also enrolled in Fall 2022. This measure is calculated using the following formula: $\frac{\text{The number of students enrolled in the program in both the Fall 2021 and Fall 2022 trimesters}}{[(\text{The number of students enrolled in Fall 2021}) - (\text{The number of students who earned a degree in the 2021-2022 academic year})]}$
